DIV OF WATER RESOURCES
RECEIVED

September 18, 2014

To Whom It May Concern,

The Mayor and Board of Alderman in Camden, TN. after making proper notifications pursuant of TCA 68-221-708, voted on June 9th 2014, to remove fluoridation treatment from the city water supplies as soon as our supply of chemical has been depleted. As of September 17, 2014 our supply has been depleted and we are no longer adding Fluoride to our cities water supply. If you have any questions or concerns you may contact Jeff Pierce Chief Operator at 731-584-7133.

Thank You,

Johnny Townsend
Water Superintendent
